

## Your osteopath asks you to keep in mind these recommendations

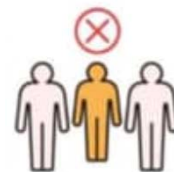

Your osteopath implements a demanding health protection system.  
Please help her by taking into account these 4 recommendations!

I do not come to the clinic if I have COVID-19 symptoms. If I have specific risk factors, I report this to my osteopath.

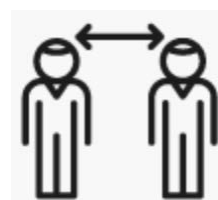

I arrive on time for my appointment : neither before nor after.  
I come unaccompanied (as long as possible).

I wash my hands thoroughly when I arrive and when I leave.  
I avoid using the toilets at the clinic if possible.

I put a mask when I arrive, I sneeze into my elbow and  
I pay attention to physical distancing.
